Ralf advises principals and contractors on issues surrounding contract drafting and contract management including claim management. This includes alternative types of contract such as partnering models. Ralf specialises in plant engineering and power plant construction. Alongside the preparation and negotiation of contracts, this also covers the project-related and company-related introduction of contract management structures. A further key practice area is the provision of internal and external training courses and workshops on these topics for principals and contractors.

What others say

„One of the most frequently recommended lawyers for construction law“

Handelsblatt/Best Lawyers® 'Germany's Best Lawyers 2025'

„Frequently recommended construction law – 'Highly competent; always achieves the best result immediately', 'quick, good and pragmatic' - clients“

JUVE Rankings 2022/2023 to 2025/26

„Named as a Thomson Reuters Stand-out Lawyer“

Thomson Reuters 2024

„Prof. Dr. Steding is truly exceptional among lawyers. He has a good feeling for what his clients need and the situation at hand and is excellent at assessing how to use resources to minimise potential risk. He understands the language of the “non-lawyers” and can quickly translate it into legal wording. I have not seen this skill demonstrated at this level in any other law firm. “

Legal 500 Germany 2020

„Listed as a lawyers recommended by in-house counsel for real estate and construction law“
